UNICARRIERS CORPORATION
A-ZX.EN/UCE-2016-09 Printed in Germany

UniCarriers Corporation reserves the right to make any changes without notice concerning colours, equipment or specifications detailed in this brochure, or to discontinue individual models. The colours of vehicles delivered may differ slightly from those in this brochure. The specifications vary for different countries depending on local market conditions. Please consult your local dealer to ensure that the vehicle delivered accords with your expectations. All values are determined based on the standard condition and may vary due to motor and system tolerances, condition of the truck and operational conditions. Some equipment shown on photos is optional.

Our new ZX runs cleaner and stronger than ever

Operator comfort and work efficiency through advanced features

Eco-friendliness with a greener diesel engine

The UniCarriers ZX 60 to ZX 100 forklift trucks have been substantially upgraded to be more powerful, yet eco-friendly workhorses with a variety of State-of-the-art features.

They include a new type of electronically-controlled diesel engine, a travel interlock system which helps ensure safe operation of the truck, and a new, easy-to-read instrument panel. The new series offer both, more eco-friendliness and

higher productivity to meet the load handling challenges of today as well as tomorrow.

Thanks to the new Transmission Performance Selector, the driver can select 3 different types of shifting performance: STD for a normal shifting, "H" for quick shift to 2nd speed and "L" to keep 1st speed. With this feature, together with speed limit selector, the truck performance is easily customized.

UniCarriers designs, manufactures and supports the most advanced material handling equipment. By integrating the three distinctive brands of Atlet, Nissan Forklift and TCM, UniCarriers is the perfect mixture of Japanese quality and technology as well as Swedish design and ergonomics. UniCarriers represents more than 65 years of industry experience, an unparalleled global reach and deep understanding of local markets.

UNICARRIERS 360°

New multi-functional LCD display
Maintenance reminder, password entry, easy load meter and more...

Equipped with ECO mode
ECO mode can be selected to reduce fuel consumption

DPF system as STD
Clean exhaust to be friendly with environment, people and goods. Automatic regeneration for easier operation

Most advanced technology and top-level power
